History of the House

Designed by Miklós Ybl, the water house has a history of more than 140 years. Built in 1875, the facility was originally responsible for supplying the Royal Palace with water, but later functioned as a café, a music and dance club, a rehearsal room, and a casino.

After a renovation which took almost a year, the plans for the YBL Creative House were born in spring 2018. It aimed at turning the Grade 1 listed historic building, a World Heritage Site, to be suitable for artistic and cultural gatherings. In April 2019, the long-awaited gastronomic partner has arrived at Ybl's favourite water house, called Felix.
