CHARITY INITIATIVE FOR THE FUTURE OF CHILDREN

Dear Supporter,

It is a great honor for us that you are dedicating your attention to this noble cause. Our initiative was born from a heartfelt purpose after personally witnessing the incredible professional work carried out at the Department of Surgery at the SOTE II Pediatric Clinic. We also saw the challenges they face daily due to the lack of adequate technological resources, despite their outstanding expertise and dedication to saving children's lives.

The clinic's surgical department possesses exceptional expertise, yet access to modern medical equipment is limited. This is why we launched this initiative, aimed at supporting the acquisition of a state-of-the-art laparoscopic tower. This device plays a crucial role in pediatric surgery, allowing for less invasive, more precise, and faster-healing surgical procedures for the youngest patients. Such advanced technology would not only ease the work of medical professionals but also bring hope and quicker recovery for children and their families.

By contributing, you can help make this life-saving investment a reality. Artist Márton Nemes has created a special series of 22 screen prints exclusively for this occasion to support our fundraising efforts. These pieces will be available for purchase throughout the entire two-month duration of the exhibition.

With your support, we can bring this life-saving project to life. While our charity events and artistic initiatives are essential steps toward this goal, assistance is needed continuously. Every donation and contribution takes us one step closer to ensuring that, alongside professional expertise, technology is also available to the doctors who dedicate their lives to the future of children.

The Felix Aqva Art Charity Circle is committed to supporting noble causes now and in the future. This initiative is just the first step on a long journey where we aim to stand by as many meaningful causes as possible, making a real difference. We believe that the fusion of art and charity can empower communities and provide genuine help to those in need.

Thank you for your generosity in supporting this cause. Together, we can help ensure that every child receives the best chance for a healthy life!

Timea Pinter-Farkas and Mate Pinter
